For the attention of Martin Darby

Dear Sirs,

***Re: Redbridge Games Time Training Venue – New Sports Hall***

Flood Flooring were initially contacted during our design and build tender period for a New Olympic Training Facility for the London Borough of Redbridge. The Clients original proposals were over budget and we were asked to come up with redesigns for the various elements of the project. Flood Flooring offered their Precast Wideslab Flooring System as an option and were extremely helpful and proactive in providing timely information to develop the design proposals.

On award of the project Flood Flooring were employed to design, supply and install the pre-cast flooring system and staircases. The design interface was excellent and coped responsively with late issue of services builderswork requirements. Once on site the installation progressed smoothly and was adaptable to the progress of the steel frame completion. Follow up customer service was excellent with queries actioned swiftly.

I would have no reservations in recommending Flood Flooring for future projects and thank you for your professional approach and assistance on this project.

Yours faithfully,  
For **KIER EASTERN**
