To whom it may concern

Dear Sirs,

RE: GLOUCESTER ACADEMY

Flood Flooring were appointed at the above mentioned project to design and supply widespan floor planks and precast concrete floor planks to be installed by our steelwork contractor.

Both the steelwork and the stair and plank installation have recently been completed and throughout the process Flood Flooring and their Design Manager Martin Darby have been more than helpful.

From our point of view the project was handled well in terms of quality and programme and this is reflected in the soffit finish which is excellent and the accurate arrival of plank deliveries.

We look forward to having the opportunity to work with Flood Flooring Ltd on future projects.

Yours faithfully
For and on behalf of
KIER CONSTRUCTION
