To Whom It May Concern

Dear Sirs,

RE: Sheffield Community Academy, Walsall

Flood Flooring have designed and supplied the precast planks for us at the Sheffield Academy.

A large proportion of the building has been designed with exposed concrete soffit ceilings. Flood Flooring have delivered on time, working well with our site team and other sub-contractors.

Their supervision has proved second to none with very regular site visits from their office to ensure that all is going to programme and that the finished product is snag free.

We would highly recommend Flood Flooring as their quality regime and their continuous monitoring of their own works has helped us provide a very high quality of exposed concrete soffits for our client.

Yours Faithfully
Kier Moss
