

To: Whom it may concern

19 Oct 2015

DSPCM employed Flood Precast to carry out the design, manufacture and delivery of precast, pre-stressed Super Wide slab plate and stairs for the new Aldi 446 space MSCP at their HQ in Atherstone.

Flood Precast were exemplary in their professionalism and provided innovative design which allowed us to accelerate our already tight construction programme. We found them excellent across all aspects of their brief and were extremely proactive in coordinating with our site team, design team and all other interfacing trades. Our key point of contact was Martin Darby who oversaw all aspects of our contract with them throughout. They fulfilled all aspects of our Health and Safety requirements and provided precast concrete to the highest quality standards.

This was our second MSCP working with Flood Precast. We would have no hesitation in recommending them throughout our industry and look forward to working with them again in the near future.

For any further reference please feel free to contact me.

Best Regards,

Stewart Reynolds
Construction Manager
