

QS/Estimator

We are currently seeking to recruit a QS/Estimator to work in its Head Office located in Oldcastle, Co. Meath.

The successful candidate will be involved in the measurement and pricing of precast concrete elements for projects both in the UK and Ireland.

It would be desirable however not required to have the following:

- Third Level Qualification or a Construction related discipline.
- Be capable of delivering projects within the allocated time frame.
- Have excellent communication skills both verbal and written.
- Computer Literate.
- Be capable of working as a team member, with a flexible approach and the ability to work on their own initiative.

This position will suit a methodical, punctual and driven individual interested in working in a fast paced environment in a growing business.

Remuneration will be based on the successful candidate's knowledge and experience.

Please forward CV's to jobs@floodprecast.com

Closing Date **28th March 2017**
